WHAT IS "ANTI-MOSQUITO VALVE" ?

"ANTI-MOSQUITO VALVE" is a light-weighted and compact device conveniently fitted onto the floor or gully trap to prevent odours and insects nuisance or breeding. It helps to block the path for mosquitoes, cockroaches, centipedes from passing through the drain pipes into your vicinity. It is simple to install, just place your "ANTI-MOSQUITO VALVE" into the floor trap grating and rotate until it fits nicely.
