## NSS 445M2 Ferritic Marine Grade Stainless Steel

Hiap Soon & Company ( Pte ) Ltd are pleased to introduce NSS 445 M2 a highly corrosion resistant ferritic stainless steel manufactured by Nisshin Steel Company Ltd In Japan.

NSS 445 M2 has much superior corrosion resistance than the austenitic grade 316 stainless steel and is widely known as Marine Grade Stainless Steel in Australia.

It's chemical composition, physical and mechanical properties resulted in a product that perform better than grade 316 stainless steel in corrosion resistance, formability and workability and most important a substantial cost advantage.

NSS 445M2 are available in coil and sheet form in 4 feet width and can be form into pipe and hollow tube for wide range of application.

<u>By Sheet Form</u>	<u>Kg/Pce</u>
1.0mm x 4ft x 8ft ( 2B )	24 kgs
1.2mm x 4ft x 8ft ( 2B )	28 Kgs
1.5mm x 4ft x 8ft ( 2B )	35 Kgs

<u>Round Tubes</u> <u>O/D Sizes</u>	<u>Kg/Pce</u>	<u>Bright</u>
25.4MM X 1.5MM X 6M	5.53 kg	SB 400
38.1MM X 1.5MM X 6M	8.22 kg	SB 400
50.8MM X 1.5MM X 6M	11.04 kg	SB 400
